## Why Did Fauci Lie?

By Dr. Jerry Scheidbach, author

**F**auci lied! See last newsletter: *When Did Fauci Lie, and Why It Matters!* But why? That's the question of this article!

It is tempting to dismiss the question as unanswerable! After all, who can know why people behave the way they do? Unless they tell us! Jesus taught us that people speak out of the abundance of their heart (Matthew 12:34). This means we can discern something about the heart of a person from what they say!

The legal standards for establishing guilt for the purpose of sentencing in a court of law are stringent for good reason. But what is needed to make a personal judgment about someone's behavior is very different. We should not be flippant when making judgments about someone's character, but we are certainly not barred from using common sense. We don't have to have what someone might call "smoking gun" evidence, with a gun held in the hand of the perpetrator, standing over the body, verified by multiple witnesses, recorded on video by multiple independent cameras. As the old saying goes: when something looks like a duck, quacks like a duck, and walks like a duck, it is very likely a duck; and anyone arriving at that conclusion would be justified in doing so. Let's apply the "duck" test.

In February 2020, he told the former HHS secretary, Sylvia Burwell, that masks were not effective to protect against a virus. In March, he told Americans they did not need to wear a mask, then later admitted it was lie, excused because he was protecting the supply needed for medical professionals. In about May he began pushing masks, but never pointed us to any scientific study supporting their use. So we know Fauci is a liar and a manipulator who has zero respect for the American people. And we know that from his own mouth.

We know he was complicit in illegal gain of function research that was moved to the Wuhan Lab and illegally funded under his watch, and that he attempted to cover up the evidence that this research led to the creation of the SARS-CoV-2 virus that causes COVID-19. We know that from emails exchanged between him and other medical associates. It is a fact. Fauci was neck deep in the research going on in the CCP controlled Wuhan Lab and he led the effort to cover that up.

We know Fauci promoted the CCP narrative that we must continue the lockdowns, cautiously reopen, and that his deputy praised the CCP handling of the pandemic with no meaningful rebuke from Fauci.

A liar, a manipulator, a criminal, and evidence he is in bed with the CCP. I think Fauci is serving his own interests, not the interests of the American people! He has been accused of being a “deep state” doctor and evidence supports the charge. I think the Deep State is testing whether Americans are ready to abandon critical, independent thinking and adopt Eastern communal thinking and uncritical subservience to the State.
