VANCE “CHECKS” THE RULE BREAKING FACT-CHECKERS WITH
CHECK MATE / WAS HELENE AN ACT OF GOD, OR AN ACT OF WAR?

Original Air Date: 10.05.24

Segment.01 Hello. I’m Dr. Jerry Scheidbach, pastor of the Lighthouse Baptist Church in Santa Maria, CA, and your brain masseur. Get ready for your brain massage.

I guess just about everything that could be said about the debate has been!

The easiest measurement of who won that debate is the MSM reaction to it — they attack JD’s beard.¹ What’s with neo-libs and their heterophobia?

When Hurricane Helene hit, I wryly asked: Was this an “act of GOD,” or an occasion of DoD Deep State “Weather Modification”? It’s beginning to look a whole lot like Deep State shenanigans.²

Biden Harris's response to Helene summarized in a snapshot: Biden runs his White House response from his favorite beach chair while Kamala attends a fundraiser for her campaign. Trump: gives 25 million to a Helene relief fund and is soles-on-the-ground with those suffering souls in Valdosta, Georgia.

FEMA knew well in advance that Helene was coming. Helene made landfall on September 26, it’s now October 4, 9 days have gone by and Myorkas is still preparing to get ready to do something! With Katrina, at least they were in action within 4 days! From what we

learned in Katrina, you would think these yahoos would have been ready to roll out relief very close to immediately.

Myorkas tells us more hurricanes are coming, and DHS does not have the money to cover the relief demands he anticipates. Gaetz has some questions about whether disaster relief money was used to fund the 13,000+ illegal alien debit card relief with a \$5000 cash limit or the slick new CBP One app that facilitates illegals crossing the border “legally.”

Let the people help their neighbors! Here is a story that will burn your grits. A former law enforcement officer, a firefighter, and a pilot, received so many calls for help he could not stand by idly. He and his son went up in their helicopter looking for people to help and rescued four. They went out again the next day, headed up to Black Mountain, there were no flight restrictions in place. They spotted an older couple but could only take one per trip. He left his son, his co-pilot, and flew the man down. Spotted a rescue team and landed nearby. He explained who he was, and the leader of the rescue team started working with the pilot, arranging a drop zone, and so on. Then, the Lake Lure, NC, Fire Chief showed up and refused to allow the pilot to go back to the wife and his son and threatened to arrest him if he did.³ Why wouldn't he welcome the help of this professional pilot and the use of his helicopter, or at the very least encourage him to heroically go back and save this woman's life and retrieve his own son? What is the matter with these maroons?

It looks like the Strikers struck a deal. Harold “I will cripple you” Dagget, dockworkers union chief, boasted about his power to cripple the United States, but I guess he is not going to get his big

chance to show how tough he is. But what I did notice is that Dagget's threat adds another argument for voting TRUMP-2024.

Okay, my friends, it's time for your Brain Massage®!

[TRUTH]

I weighed in on the night of the debate on my Brain Massage® LIVE podcast Tuesday night. I'll summarize my afterthoughts and take on it here.

The overall outcome can be quickly measured by the Left's response: they attacked JD's beard. It represented too much masculinity, and that's an aggression against women! ???

Their attack on JD's beard summarizes the impact the debate had on viewers: JD was the "confident-and-ready working man" while Walz did the farcical Waltz in E Minor, complete with limp wrist with Tutu.⁴ My personal favorite moment was when Vance legally and gentlemanly "checked" Brennan into the "boards"⁵ when she attempted to illegally and in a catty manner "Fact Check" JD—which was CONTRARY TO THE AGREED TO RULES OF THE DEBATE. So, what "cat" did Vance let "out of the bag" that CBS and lefty leaders did not want Kamala's supporters to see?

Here is the moment: [INSERT 69. which is a +1 pages].

First, it's obvious they did not want JD to comment on Kamala's Border Czar-commissioned illegal crossing App, the one illegal migrants use to schedule an appointment with Customs and Border Protection to get safe passage into America, allowing Mexico's la Presidenta, the Jewish-Mexican Claudia Sheinbaum, to provide escorted busses to transport all to the border who have a "legal" appointment to enter the US — I guess these first female presidentas must stick together. Right! Well, not so fast! Kamala has

⁴ duck://player/o0axUoy4wbQ

⁵ 1006.0.1-What is Boarding in Hockey? Understanding the NHL's Boarding Penalty
<https://www.hockeymonkey.com/learn/boarding-in-hockey>

not been elected, nor is she like to be. Sheinbaum might want to think about what she is doing! Unless she is trying to sabotage Kamala. Either way, it's not a good look for our Communist female presidential aspirant!)Can you imagine a Woke Mexican? What do you do with all the gender-determinant language?)

But the more subtle revelation from that clip comes at the very end, when CBS moderator Margaret Brennan thanks JD for clarifying the legal process. Did you catch that? [INSERT-end of clip 69.]

It helps to understand how these people think about truth and law. Brennan mockingly revealed how Progressives generally make a mock of law. In this instance, Kamala and Myorkas made a mockery of our immigration laws with their border policy and topped it off with this app. You see, for the “government” to create a “lawful” way to “violate” the law — both the letter and spirit of the Law — is to mock the LAW and undermine the very concept of law and order. Making it lawful to break the law is an unlawful abuse of law. Were you able to follow that? I know it's confusing.

It's against the law to cross our border without passing through a port of entry. There are specified requirements one must meet to cross with temporary protected status — which allows the migrant certain immunity. The assumption is, and the law requires, vetting before they are allowed in, but Kamala and Biden removed all that, canceling something like a hundred executive orders implemented by President Trump to get the border under control. This is malfeasance by a public official — and in this case, it is nothing short of treason.

But did you note the smugness in Brennan's tone, and the snide manner by which she dismissed JD's exposure of their evil betrayal of the American people: “Thank you for clarifying the ‘legal’ process.” Because they wormed their way through a loophole, and in fact stretched the language of our border laws into multiple loopholes, a government “power” did it, so it's LEGAL! In her view,

the Haitians are here “legally” because Kamala and Myorkas “made it legal,” but they did so WITHOUT THE CONSENT OF THE GOVERNED. And by doing so, they have exposed the American people to the affront of dealing with over 15k convicted murderers released into our cities and over 13k rapists — or is that 13k murderers and 15k rapists?

Let’s get started on Helene!

When Hurricane Helene hit, I wryly asked: Was this an “act of GOD,” or an occasion of DoD Deep State “Weather Modification”? It’s beginning to look a whole lot like Deep State shenanigans.⁶

You’ve heard of misinformation, disinformation, and malinformation: there are categories of government shenanigans, too. This would be a treasonous shenanigan since it involves the American government attacking Americans on behalf of corporate greed. Been a lot of that going on lately. COVID-Jab, anyone?

I can’t exhaust you with a scientific explanation of the history of our DoD’s flirtation with weather modification experiments. Here are a couple of sources that provide compelling evidence. An Alex Jones expose you’ll find interesting.⁷ An article attempting to debunk it with references to government “authorities” that deny it.⁸

Then there is this CNN article verifying that Scientists in the US are flying planes into clouds to make it snow more.⁹

Asheville was chosen by many, some among them climate scientists, because it was considered relatively safe from extreme weather.¹⁰ (You have to read this CNN article carefully: Laura Paddison and Holly Yan team up to explain that although, according to the headline: “People moved to Asheville to escape extreme weather,” these reporters labor to show that, however, “They forgot its tragic history.” And if you read it carefully, you will notice that the “climate scientists” who moved to Asheville to avoid extreme weather were smarter than these clever propagandists give them credit.

I think we can authoritatively assert that man-made weather modification, let’s call it manipulation, is a FACT! Whatever men can modify, they can manipulate.

Let’s play FILL IN THE BLANK! Good men will use weather modification for [BLANK]. Evil men will use weather modification for [BLANK]! How’d you do?

We know that weather modification is done today! The evidence supporting the assertion that weather modification has been used in military applications is incontestable! The question is, would our current government use a military application of weather manipulation against American citizens? Well, what do you think?

They have weaponized the DOJ and the FBI against American citizens — why would we think elements within the DoD would not do the same? How far will these people go to disrupt this election? That seems to be the Jone’s taken on it, and I do not doubt it.

Here is another take on what's going on, it's Maui revisited. Greedy corporations want to buy up real estate in Asheville and some of the Mountain mining towns. Asheville is rich in lithium, and the mining towns are rich in quartz. These materials are worth multiple billions of dollars in the battery energy and computer industries. I said earlier that we are looking more like China every day — a Communist-Capitalist model, where the worst of both systems are combined to create a totalitarian government that would make the Beast blush with anticipation.

Okay my friend, hold on through the break. When I get back, we'll take a look at the question: was Helene an Act of GOD, or an ACT OF WAR?

Segment.02 Hello. Welcome back! I'm Dr. Jerry Scheidbach, pastor at the Lighthouse, your brain masseur, and Paul Revere's lantern lighter, lighting the lamps in the church belfry arch, signaling the enemy is on the march, an enemy that would steal from us our liberty.

Let's present the picture of what's going on with Hurricane Helene.

Biden Harris's response to Helene: Biden runs his White House response from his favorite beach chair while Kamala attends a fundraiser for her campaign. Trump: gives 25 million to a relief fund and is shoes-on-the-ground with those suffering in Valdosta, Georgia. The DHS promises Helene families will get a whopping \$750 in relief payments. Illegal aliens get a \$13,000 EBT card with \$5000 cash. There is no way to understand this except to admit the truth: Biden/Harris care nothing for America or the American people.

Okay, here is a test of your understanding of the Trump-versus-government-media dynamic. Trump received a report that Governor Kemp had made unsuccessful attempts to reach Biden. He posted on Truth Social that Kemp had tried to reach Biden

about relief but had not been able to get him.¹¹ Deep State news, USA Today, Trump “also said, falsely, that Georgia Gov. Brian Kemp — a Republican who did not appear at the event — was trying to reach Biden about relief, but had not been able to get him.” [IBID.] Two things!

First, notice the USA Today reporter, David Jackson, interjects his opinion, adding the word “falsely.” The old school way of addressing this would be for the reporter to state what Trump said, then quote a source that contradicted it — like, “Trump said Kemp tried to reach Biden about relief but could not get him,” followed by, “A spokesperson for Gov. Kemp (or Governor Kemp) denies that he attempted to reach Biden and could not.”

Instead, the propagandist changes the story and makes it about whether or not Kemp had talked with Biden about relief by the time they contacted his office. Catch it? No? Okay, I’ll lay it out.

How many times have you ever heard Trump actually tell a lie about anything? Ever? How many times have you caught the DSM (Deep State Media) lie? [Insert Squirrel laughter.] Right!

So, what do you make of this? Obviously, a true report reached Trump that Kemp had tried to call Biden and was unable to reach him. Why? Well, we can speculate! The surf was so loud at the beach that he did not hear the phone. [Haha!]

Later, sometime between the report that got to Trump, likely from an insider at Kemp’s office, to the time USA Today reached out to confirm, Kemp did speak with Biden. Now, how many of you believe that conversation went something like this: “I’m calling to run down a rumor that Kemp has called Biden about relief but has been unable to reach him.” Answer: “Kemp called a few times and did finally get to talk with Biden.” Reporter: Kemp talked to Biden,

¹¹ 1006.27.1-Trump surveys Hurricane Helene damage in Georgia <https://www.usatoday.com/story/news/politics/elections/2024/09/30/trump-georgia-hurricane-helene-damage/75450153007/>

Trump lied! Now, how can I call Trump a liar without saying it? I know, I'll interject "falsely," which says the same thing but not!

That's the way devils lie. Normal people don't work that hard at lying, which is why they are much more easily caught.

Then, second: I understand the significance that Kemp — Republican — did not appear with Trump — the Republican Presidential Candidate — at a disaster site in his own State. But USA Today's Jackson does not understand that significance.

You see, backstabbers are uncomfortable around the people they've stabbed. Godless, lying, sycophant sell-outs don't feel comfortable in the presence of a real man! Traitors don't like Patriots; it bothers their conscience; makes them face what they aren't. Kemp and Rafensperger are very likely beneficiaries of the Georgia Election Machine and resent Trump's exposure of Georgia's corruption. Like Liz Cheney, those sorts of Republicans feel more comfortable with Demoncrats—people nearer their own kind.^{12]}

FEMA knew well in advance that Helene was coming. They should have been ready to roll out relief very close to immediately. Did they learn nothing from Katrina?

Myorkas tells us more hurricanes are coming, and DHS does not have the money to cover the relief demands he anticipates. THAT IS HEAD EXPLODING OUTRAGEOUS — Biden's administration has doled out, this year alone, got that? Not counting the whole foreign aid disbursements, only this year: 24 billion to Ukraine, 11 BN to Israel, 1.9BN to Ethiopia, 1.6 BN to Jordan, 1.4 BN to Egypt, 1.1 BN to Afghanistan (don't forget the 85 Billion in arms left to the Taliban), 1.1 BN to Somalia, 1 BN to Yemen, just under a BN to Congo, about the same to Syria — 9000 PER ILLEGAL

¹² 1006.16.1-Trump surveys Hurricane Helene damage in Georgia <https://www.usatoday.com/story/news/politics/elections/2024/09/30/trump-georgia-hurricane-helene-damage/75450153007/>

IMMIGRANT ENTERING THE US IN 2024.¹³ What does Biden promise to our own Helene-devastated Americans? \$750 each — it's the same outrageous insult they gave to Maui! They are doing it AGAIN, because we let them do it before.

Let the people help their neighbors! I get it; well-meaning good Samaritans can actually interfere with real relief getting to those who are suffering. But when the government sits around gazing at its navel while our American neighbors are crying for help — Americans are going to step up and step in!

In the past, when professionals offered their services when we were governed by the righteous, it was welcomed, and they were enrolled in the operation.

Helicopter pilots running rescue missions and bringing in water and other supplies while the government concentrates on body recovery and tries to stop citizens from rendering assistance to their neighbors sure looks like a “government operation” all right!

Let the people help their neighbors, Myorkas, while you trying to get your shoes on and figure out where your navel is and what its for — just might save some lives!

Hurricane Helene — a “government operation.”¹⁴ Well, it so happens that weather manipulation (modification) “is” a thing! Asheville was a chosen place to live because climate scientists considered it relatively safe from “extreme” weather. Ashley is a lithium-rich environment, and the government has shown a predilection to cooperate with corporations to further mutual interests. A disaster like this would normally be very bad for a political candidate who can be connected to the government's response, so you'd think Kamala would be all over this, but the Border Czar is fundraising instead of leading. Why? The

¹⁴ <https://x.com/WallStreetApes/status/1842217665303372243>

government has some “other” interest that “Trumps” their duties to the American people.

The idea that hurricane Helene was directed to Ashley to move the population out and let companies, like BlackRock, move in is a very plausible and reasonable “theory” given today’s political climate.

Here is a story about BlackRock signing a 90-million dollar contract to mine lithium in a town devastated by Helene.¹⁵ This goes with the story suggesting the Hurricane was directed by Nefarious elements within the US Government to Asheville, NC, for example, because of the lithium deposits found there.

In my effort to verify or debunk this BlackRock story, I came across disturbing confirmation of critical aspects of the story. Here is an effort to debunk the idea, but it’s what is in the article that is admitted that troubles me, and in the current context of our broken government and broken government media, our “China-like” government, a government that consistently demonstrates utter disregard for the people’s human rights, subordinating human interests to the interests of the State, and to the protection of the Communists in control, it’s what is admitted that convinces me the government is lying about what is denied.¹⁶

Then, there is the overheard conversation between four FEMA reps and government military and hospital personnel in a private part of an airport in North Carolina. The problem with these stories is that I don’t have the name of this lady, I don’t have the name of the airport, I don’t know with certainty when this occurred, and we have her testimony alone. There is no way for me to verify her story.

¹⁵ <https://x.com/RyanMattaMedia/status/1841981568564248907>

¹⁶ 1006.25.2-Fact Check/ Hurricanes CANNOT Be Directed To A Specific Location Such As Albemarle Lithium Mine In Kings Mountain, North Carolina | Lead Stories <https://leadstories.com/hoax-alert/2024/10/fact-check-hurricanes-cannot-be-directed-to-a-specific-location-such-as-albemarle-lithium-mine-in-kings-mountain-north-carolina.html>

I'll say she seems convincing; the story fits what we are hearing from multiple other sources, and it is the sort of thing we have come to expect from our government. Her story in the pertinent part relates that according to FEMA representatives, Mission Hospital was told they would be the morgue for dead bodies expected to be recovered from the wreckage of the storm.

She said all the military helicopters seen in the skies are tasked with doing "body recovery," **THEY ARE NOT THERE TO RESCUE YOU.**

She offers what she stipulated we could take as a "direct quote" from FEMA: they are too tied up at the border to send any more representatives [?].

Now, I ask, Why would that be? From all reports, the only thing they are doing at the border is **STOPPING PEOPLE FROM NEIGHBORING STATES FROM DELIVERING RELIEF TO THEIR FELLOW AMERICANS!**

Back to our unknown observer: She heard them say that whatever fatality numbers you are hearing, go ahead and add a couple of zeroes. So far, we hear there are 200 casualties, so according to these FEMA reps, we are at 2000. She said FEMA is doing **NOTHING** to provide relief. That's her conclusion.

For example, here is a report from a man whose name I assume is Joe. He tells us he is working security for a dialysis company, trying to help people in this disaster who require dialysis so they won't die.

He complains that the military is being hindered from taking action—being hamstrung by DoD executives. [The DoD! The people who operate weather modification equipment! Hmmm.]

He tells us about a man he talked to who flew his helicopter into the flooded area to do a rescue. He landed, was arrested, and told he would have to leave because he was interfering with a government

The Honorable Alejandro Mayorkas
Secretary of Homeland Security
Washington, DC 20528

Dear Secretary Mayorkas:

Yesterday, you stated that the Federal Emergency Management Agency (FEMA), which is a part of your department, “does not have enough funds to make it through the [hurricane] season.” This news comes after FEMA has spent hundreds of millions of taxpayer dollars on migrants due to Border Czar Kamala Harris’ open border instead of prioritizing funding for Americans impacted by disasters.¹

My office has been in contact with whistleblowers in numerous emergency-management functions at the federal, state, and local levels, and they all point to the same critical mismanagement issues. FEMA has wasted taxpayer funds, misappropriated funds, and left other federal, state, and local responders without deployment orders on the ground. As reported and further confirmed by my office, hundreds, if not thousands of service members were deployed by the Department of Defense to North Carolina and have sat idle, waiting for FEMA.² We have confirmed FEMA employees deployed, on the clock, awaiting orders in hotels. FEMA pre-disaster aid was withheld, exacerbating the emergency. It is also public that NGOs have purchased airline tickets for migrants through the use of FEMA funds.³

The aftermath of Hurricane Helene is a major disaster, and your waste and unpreparedness are leaving Americans in distress—unable to access food, water, or medicine—and expecting help, with none coming.

Please provide answers to the following questions to my office by October 11, 2024:

- (1) What policies and regulations of the Department of Homeland Security and FEMA prevent emergency funds from being wasted on illegal immigrants, including what conditions are placed on grantees of the agency?; and
- (2) Of FEMA’s total budget for FY 2024, what portion of funds can be guaranteed to have been spent solely on American citizens, and what portion of funds was or may have been spent on noncitizens?; and
- (3) In FY 2024, what portion of funds in the Disaster Relief Fund have been spent on non-disaster-relief programs, such as providing services to illegal aliens or providing routine training to FEMA employees authorized out of general appropriations?

Sincerely,

Matt Gaetz

Congress allocated for disaster relief—he wants to know if funds were diverted from disaster relief to pay for Kamala’s CBP One app¹⁸ and the thousands of dollars paid out to illegal immigrants crossing our border—a crossing that has been directly facilitated by Kamala’s Border Czar administration. PERIOD!

Okay, let’s begin the wrap!

It looks like the Strikers struck a deal. Harold “I will cripple you” Dagget, dockworkers union chief, boasted about his power to cripple the United States but, in doing so, he brought out something Trump has warned us about several times. We have driven manufacturing jobs out of America so that now we are dependent on China and other countries, most of them our enemies, to provide critical supplies! Dependent on foreign oil, and dependent on foreign manufacturing — it’s time to go all George Washington and take CARE OF OUR OWN BUSINESS! And disconnect from these wicked, oppressive regimes overseas. We should NEVER be dependent on our ENEMIES.

Have you noticed how almost everything that is going wrong in this country and almost every advance of communism in America has been aided and abetted by those who have contrived to make America dependent on foreign powers? I remember feeling uneasy about the Nixon-Kissinger China plan. It made sense; it seemed a clever idea—give the Chinese a taste of capitalism and get them entangled with us commercially, and then they’ll become like us politically. What happened is what I feared: China simply created a hybrid of government-controlled capitalism, and now we are beginning to look a lot like China politically.]

I have lit the lamps in the Church belfry arch, and now you let me know if you see them.
