Brain Massage®: Show No. 1092

HAPPY MEMORIAL DAY / TRUMP THE RHINO HUNTER / THE BATTLE FOR AMERICA IS ON

Original Air Date: 05.23.26

Segment.01 Hello. I'm Dr. Jerry Scheidbach, pastor of the Lighthouse Baptist Church in Santa Maria, CA, and your brain masseur. Get ready for your brain massage.

Have a Memorable Memorial Day—one way to do that is to join us this Sunday for my Adult Bible class and Sunday school for all ages, which begins at 9:30 am, then the main service at 10:45, followed by our evening worship service at 5 PM - come to one or all services, nursery

provided, we would love to see you in church.

This is disturbing! I received a report from The Wellness Company providing the results of a study out of South Korea that indicates a dramatic increase in cancer among those who received vaccinations as compared to those who did not. These sorts of studies do not prove causation, but they do raise the question. Let's take a look at this!

Make America Bright Again — what's that? MABA? Let's get rid of this clock Spring Forward and Fall Backward frustration. Thank you, sir, for your attention to this matter.

Thune: he refused to present the funding Bill passed by the House, yep, sent everybody home to mourn the recent RINO losses — Trump's endorsement wins are breaking all the records and are somewhere upwards of 80% — RINOS are getting dropped like the five White Rhinos Teddy Roosevelt bagged and tagged in East Africa Rhino Camp.¹ Trump has bagged three, so far, but of course, these are a different breed. The sort Teddy dropped are spelled R.H.I.N.O. Trump is taking aim at another breed, spelled R.I.N.O.

What about the Anti-Weaponization issue before the House right now?

We seem to be having a problem with Congressional leadership. Thune in the Senate and Speaker Mike Johnson in the House, where we are supposed to hold the majority.

Okay, my friends; it's time for your Brain Massage®:

[TRUTH]

This is disturbing! I received a report from The Wellness Company providing the results of a study out of South Korea that indicates a dramatic increase in cancer among those who received vaccinations as compared to those who did not. These sorts of studies do not prove causation, but they do raise the question. Let's take a look at this!

The Wellness Company has a reputation for opposing the COVID-19 mRNA vaccines. The South Korean medical establishment conducted this study, and while they do not assert that it constitutes conclusive evidence of causation attributable to the mRNA vaccine, it does raise a significant association between the phenomenal increase in cancer diagnoses and the introduction of mRNA vaccines.

¹ 1092.0.1-Teddy Roosevelt's Epic (But Strangely Altruistic) Hunt for a White Rhino <https://www.smithsonianmag.com/smithsonian-institution/teddy-roosevelts-epic-strangely-altruistic-hunt-white-rhino-180958626/> The famous Big Game Hunter-President journaled his adventures in this publication. Trump bags a new sort of Rhino.

This sort of study establishes the fact that since the mRNA vaccines were introduced, there has been a dramatic increase in cancer. Specifically, in six types: a +69% (rounded from 68.7%) increase in prostate cancer, a +53% (53.3%) increase in lung cancer, a +35% (35.1%) increase in thyroid cancer, a +34% (33.5%) increase in gastric cancer, a +28-35% (The Wellness Company report explains the variable is due to differences in some reports) (an AI generated examination of the South Korean analysis of the Korean National Health Insurance database including over 8 million individuals calculates the increase in cancer diagnoses within 1 year of receiving the vaccine to be 28.1%). Breast cancer diagnoses increased +20% (19.7%).²

The results of this study have a 95% CI (Confidence Interval), which is a “statisticians’ way of saying ‘we are 95% confident the true hazard ratio lies somewhere in this range.’ [IBID.] The results are limited to the parameters of the research (data focused on cases diagnosed after the introduction of the mRNA vaccines, which is, sort of, the point; and without taking into consideration the probability that those who received the jab were more likely to visit their medical professional with greater frequency, affecting a higher incidence of cancer discovery in that group).

I’m not going to torture you with a continuation of this level of precision in reporting, but I included it here to demonstrate how thoroughly I research this sort of information before I bring it into the show. Nevertheless, while I introduce myself as Dr. Jerry Scheidbach, I am not a medical doctor; I’m a doctor of theological studies, once considered the Queen of the Sciences, and the most ancient holders of the title “Doctor” were Theologians.

Anyway, if you want to read through the medical establishment's arguments supporting a claim of efficacy for the mRNA COVID-19 vaccines, knock yourself out.³

(Caution-1: none of these studies address concerns about safety, except for one reference comparing later to earlier mRNA vaccines. Which, by itself, raises questions. Caution-2, these come from the compromised FDA, LANCET, JAMA, and some other less popularly known medical establishment propaganda-sensitive groups and associations.) We all remember how the “Medical Establishment” locked arms in defense of the whole COVID nightmare, and we have lost confidence in the integrity of their version of “Fauci-science.” Remember the “mask.” Get my book, *Let My People Breathe*, mentioned in some academic articles. This book provides a comprehensive look at the true science and Scripture regarding mask efficacy and the legitimacy of mask mandates. You can get a digital copy for under \$5 bucks. Anyone who purchases the book can get my research notes, a \$100 value, FREE with a code included in the book. The secret code is found at the bottom of p. 119 in the physical book and on the last page before the index in the digital version.

One last comment on this before I move on to other topics. Remember all the talking heads that assured us that if you take the mRNA COVID vaccine, it stops transmission of the disease, and all the shaming that was hurled at us by the MSM, and Fauci, and Birk, and, well, every medical establishmentarian —

Dr. Robert Redfield, former CDC Director from 2018-2021, on December 18, 2024, during a public affairs event at The Heritage Foundation, called “The Future of Biosafety,” said out loud, in front of God and everybody, that the mRNA COVID vaccine “Wasn’t ever meant to prevent transmission. It didn’t prevent transmission. Probably was a misnomer to call it a vaccine. It’s really more like a medicine. It doesn’t stop infection.”⁴ (Check the link for his full statement in which he explains why he recommended it for the elderly, and resisted use of the vaccine for children, those not at high risk, and expressly rejected the idea that it would protect from transmission or from infection. He saw some benefit as a “medicine” to facilitate healing, but not as a way to control transmission. He also expressed concerns about its association with harmful reactions. He explained very little has been done to verify its safety, and said he would not be surprised if the mRNA COVID vaccine is what he called “black boxed” within a few years. See it here. (IBID. 3). (For something to be “black boxed” means the FDA requires the manufacturer to place the strongest level of safety warning on the product’s labeling: “Could cause death, permanent disability, or severe injury.”)

If you wonder why Dr. Robert Redfield left the CDC Directorship in 2021, and was replaced by Dr. Rochelle Walensky, all you need is to hear her statement on the efficacy of what we now euphemistically call “the jab”: “Our data from the CDC today suggests that vaccinated people do not carry the virus, don’t get sick, and that it is not just in the clinical trials, but it is also in real-

⁴ <https://www.facebook.com/watch/?v=1591203145355608>

world data.” See and hear her statement here.⁵ During her U.S. Senate testimony, then Director of the CDC said, “Data have emerged again that demonstrate that even if you were to get infected during post-vaccination, that you can’t give it to anyone else.” Reported by Holmes Lybrand, CNN Politics, May 21, 2021.⁶

Rachel Maddow, probably the lead cheerleader among MSM for the vaccine, said: “Now we know that the vaccines work well enough that the virus stops with every vaccinated person. A vaccinated person gets exposed to the virus, the virus does not infect them, the virus cannot then use that person to go anywhere else. ... It cannot use a vaccinated person as a host to go get more people. That means the vaccines will get us to the end of this.” [IBID. No. 5].

Here is another example of many more from Maddow: On the night after her interview with Walensky, Maddow reported on “new research” that the vaccines, “not only significantly protect against Covid symptoms but for the most part actually block infection, which means they also prevent the spread of the virus.”⁷ She said, “We can end this thing with vaccines.” She said, “The virus stops with every vaccinated person.”

⁷ 1092.17.15-'We Can Get There!'_ Stunning Pace Of U.S. Vaccinations Puts Pandemic's End In Sight _ Rachel Maddow - YouTube.pdf <https://www.youtube.com/watch?v=jDtUWXOmLLg> (at 3:21 into the video begins her statement on protection from infection and transmission, but she gets to it at 5:28, she show a New York Times headline: “The Moderna and Pfizer-BioNTech vaccines are very effective in real-world conditions at preventing infections, the C.D.C. reported.” By Gina Kolata, March 29, 2021. Then, Maddow reported that the C.D.C. released the following statement: “Consistent with clinical trial data, a two-dose regimen prevented 90 percent of infections by two weeks after the second shot. One dose prevented 80 percent of infections by two weeks after vaccination.”

Joe Biden said, in a CNN Town Hall with Don Lemon, “You're not going to get COVID if you have these vaccinations.”⁸

But the Director of the CDC before Walensky said, nah, the vaccine was never meant to stop the spread, at best it was a medicine that showed some promise of helping those infected, and that it was actually questionable whether the mRNA jab could rightly be called a vaccine. So, Biden got rid of that guy! And installed waffling Walensky.

The dark powers of the rulers of the darkness of this world are lurking about, looking for an opportunity to do it again. Please “watch and pray” and be prepared—get the book *Let My People Breathe!*

Segment.02 Hello. Welcome back! I’m Dr. Jerry Scheidbach, pastor at the Lighthouse, your brain masseur, and Paul Revere’s lantern lighter, lighting the lamps in the church belfry arch, signaling the enemy is on the march—an enemy that would steal from us our liberty.

Make America Bright Again — what’s that? MABA? Let’s get rid of this clock Spring Forward and Fall Backward frustration. Thank you, sir, for your attention to this matter.

The Sunshine Protection Act will make Daylight Saving Time permanent.

I had not thought about it, but, yeah, I suppose this will save millions twice a year sending teams out to change the Clock Towers? How many millions will be saved on the impact of three or four days of drowsiness on job performance! Oh, not to mention the drop off in church attendance caused by this. Anyway, GOD intended we get a season of longer, brighter evenings, and I say, AMEN to the Sunshine Protection Act. I wonder if we get Thune to

work on saving sunshine, because we already know he can't be bothered with SAVING AMERICA, no time for that!

Speaking of Senate Majority Leader Thune: he refused to present the funding Bill passed by the House, yep, sent everybody home to mourn the recent RINO losses — Trump's endorsement wins are breaking all the records and are somewhere upwards of 80% — RINOS are getting dropped like the five White Rhinos Teddy Roosevelt bagged and tagged in East Africa Rhino Camp.⁹ Trump has bagged three, so far, but of course, these are a different breed. The sort Teddy dropped are spelled R.H.I.N.O. Trump is taking aim at another breed, spelled R.I.N.O.

Dan Crenshaw (R-TX) lost his seat in the House, along with Thomas Massie, and Cassidy was recently dropped from the Senate. Cornyn is targeted and expected to drop on the 26th of this month (May, 2026) to Paxton. That will make four. To tie Teddy's record, he will need one more, but I'm not counting all the State representatives and other elections Trump has endorsed.

No wonder the RINOs are shaking in the House and Senate. These RINOs don't like being answerable to the People.

I hope you understand what's going on with Thune and those supporting him, those propping him up, and allowing him to continue providing cover for their own cowardice, and rebellion against the Consent of the Governed.

They don't want to rule under the consent of the governed, and they are making a play for stopping Trump's efforts to fulfill yet another promise he made to us—to give the government BACK TO THE PEOPLE — to take it away from Washington DC and give it back to the PEOPLE —

⁹ 1092.0.1-Teddy Roosevelt's Epic (But Strangely Altruistic) Hunt for a White Rhino <https://www.smithsonianmag.com/smithsonian-institution/teddy-roosevelts-epic-strangely-altruistic-hunt-white-rhino-180958626/> The famous Big Game Hunter-President journaled his adventures in this publication. Trump bags a new sort of Rhino.

[INSERT CLIP]

That was from nine years ago, January 20, 2017, at the beginning of his first term, and he has not forgotten us. He remembers his promises and keeps them!

And that's what these devils hate about him the most. If he would simply "join the club" and turn his attention toward protecting the backs of those who have stabbed America in the back by working for the "club" members and not for the American People who pay these devils.

So Thune is singing like a RINO. I agree with Bongino: Thune is leading the RINO pack, and they are shaking in their Peris'sodactyl hooves.¹⁰ Thune opened the gate to let them escape, sneaking away on their soft and quiet padded hooves to their safe home pads to lick their wounds, heal, and plan their next move to save the RINO pack from the RINO hunter.

Yeah, it's over. God has raised up Trump to restore the most important principle of divine civil order: CONSENT OF THE GOVERNED. No more of this evil "divine right of kings" nonsense. Or its cousin doctrine, the "divine right of government rulers," carried over from the Catholic—Pagan alliance made with Rome and developed through the Dark Ages.

What about the Anti-Weaponization issue before the house right now.

But, beware: the Roman Whore is saddling the beast. The religious system of Rome is attempting to saddle the fourth beast of Daniel's prophecy, holder of "the kingdom," and the Bride of Christ must resist and not assist this effort. The dilemma we face is the chameleon-like power of the Whore, which knows the way to draw away Christians is through political alliances. It's a dilemma because we should always be in alliance with truth, even when the

¹⁰ https://grok.com/share/c2hhcmQtMg_110618d9-c95a-4674-8946-3a5f11936e5b

devil is the one speaking it. But we must, like Christ, be vigilant to counter efforts to use truth to forge an alliance with us, and remember Christ's tactics: when truth is spoken to advance a lie, we must know our Bible well enough to counter with "it is written again," and thus expose the misuse of Scripture to seduce the church to bow to Satan's rule.

But let me tell you how evil Thune is and the Senators who follow him, and allow him to thwart Trump's effort to save America. To stop Trump from using these Senate recesses to use his prerogative of recess appointments, and install his picks for various positions in his administration that require the Senate to "advise and consent" this evil traitor appoints someone to gavel the Senate into session, with one chosen Senator present, and in a few minutes, gavel the session closed again,¹¹ timed perfectly to say the Senate has not been recessed the requisite 10 days, set by the SCOTUS, to allow the President to exercise his Constitutional power to make appointments during a recess.

And, by the way, no Senate Majority leader has EVER deployed this trick against a President of their own Party.¹² The first time this devious tactic was contrived was by the despised, by the Right, anyway, the despised Demoncrat Harry Reid who used this against Republican Bush II in 2007-2008. You knew this devilish business was contrived by some Demoncrat, didn't you? Of course you did.

I guess Thune is a Democrat-operative hiding in Grand Ole Party disguise — the guy is treacherous, and he must be got rid of. Matt Van Swol, on X, observed: "Leader Thune appears to be a Democrat. He has refused to pass the SAVE Act, refused to fund ICE / Border Patrol, and blocks Trump's recess appointments."¹³

Every one of these actions are DEMOCRAT FRIENDLY, DEMONCRAT SERVING moves by the Republican Senate Majority Leader. When is someone going to cry FOUL, throw in the penalty flag, and remove this bum?

Come on, RINO hunter Trump, drop RINO Thune, bag your fifth to tie RHINO hunter Teddy's record. But I agree! This RINO should be outed and ousted by the Senate. This would be a good job for the President of the Senate to spearhead — come on, JD, speak up and call for Thune's removal — take the gavel from that tune and give it to a MAGA patriot.

We seem to be having a problem with Congressional leadership. Thune and Speaker Mike Johnson.

Thune sent the Senate home without doing the Senate's job and ensuring America is protected from government abuse and overreach. This guy just does not want to protect America. He does not want to protect our elections; he does not want to fund ICE and Border Patrol. What else can I think?

What is he whining about now? Excuse me, say again! What? He is, in his own words, “not a big fan” of providing a fund to compensate Americans unjustly attacked by the weaponization of “government”? He can't be afraid that Trump is going to benefit, since he has already openly and formally declined receiving any compensation for attacks on him and his family, beyond receiving a public and formal apology from those perpetrating this evil on him. But he wants the J6 victims to be able to be made whole after having their lives destroyed by the evil beast of government weaponization. Nothing is more fearful to the average American than for the government to use its seemingly limitless power and resources to come after them to destroy them, rather than be there to protect them.

He is throwing a fit because Trump did not consult him in advance? What are you talking about? The President asked for a Bill to be

hammered out in Congress that would provide access to relief against government abuse of power used against them. These guys are ready to discuss providing relief for every other kind of misfortune that comes upon American citizens — the only misfortune they don't want to compensate is when it comes from them.

Want to know what's particularly offensive about this? I heard Dove, that's my wife, I call her Dove, and she refers to herself as Jerry's Dove, anyway, I went down stairs to get some coffee during show prep, and she was listening to Vince this morning — hey, when I was driving from Washington DC to Ripley, W. Virginia on my way to see our son, I saw an exit sign for a street named Jerry Dove — I got a picture and sent it to her — pretty cool! Anyway, I heard Vince talking about this and talking about the hypocrisy of the Senate.

Do you remember that brouhaha that got all stirred up when the Senate learned that Biden's DOJ was illegally spying on them, accessing their phone records, and spying on them at the behest of "traitor" Jack Smith as part of his weaponization of the Justice Department against Trump? Senator John Thune, Majority Leader of the Senate, created a legal pathway for the U.S. Senators, but NOT HOUSE MEMBERS, to sue the Federal government for at least \$500,000 per violation, plus attorney's fees, if federal investigators obtained their phone records without prior notice.

Did you know that Thune instructed that this provision be added to the government funding bill in the final hours of the negotiations? This provision did not protect House members or the general public; it protected only Senators. The House shut it down. So it didn't go anywhere.

However, imagine the sort of distorted soul that could have the hubris to sneak in such a provision benefiting only a select group of "friends" and colleagues, and expressly deny any relief to House

members or to the public, and then, get up in arms against Trump because he wants to provide such a fund to relieve those victimized by the Biden era weaponization of government against American patriots, like those abused by the false J6 accusations—something that still has not been adequately adjudicated.

Why is Thune holding up Trump's appointments, and why is Trump not putting forward his replacement for AG while Thune holds the gavel — does this add up to the sum I think it might? That's a weird sentence. But, anyway! You get it. What has Trump got planned for getting around this latest effort to keep the government from being delivered into the hands of We the PEOPLE?

Can you imagine this creep, wanting to give his Senate club members relief from oppressive abuse of government power, but does not want to extend that protection to American citizens?

Thune does not want to give POWER to the AMERICAN CITIZEN. This is betrayal of the fundamentals of our contract with government OF, BY, and FOR the PEOPLE!. IT'S NOT GOVERNMENT OF, BY, AND FOR THUNE, AND HIS FELLOW ARISTO-COUNTRY-CLUB REPUBLICAN-IN-NAME-ONLY COMRADES.

No, really, drop the hyperbolic rhetoric for a moment; think about this. Thune is obviously avoiding yielding to what he knows is the will of WE THE PEOPLE — first three words of the Constitution — the first party of the contract — the Party of the first part initiates the contract, drafts it, and outlines its provisions. The party of the second part agrees to the terms, or does not.

WE THE PEOPLE of the UNITED STATES OF AMERICA are the party of the first part. I understand there is no legally established priority defined for the party of the first part, but it is commonly understood that this is the “seller” or the “employer” or the initiator of the terms of the contract, and the party of the second part, by

accepting the contract terms, is bound by those terms for the term of the contract.

Anyway, all cuteness aside, I offer that in the mind and heart of our Founders, WE THE PEOPLE are the party of the first part, initiating and defining the terms in the relationship established by this contract with those who would rule on our behalf.

The preamble identifies the authority upon which the contract stands, the authority of WE THE PEOPLE, and the purpose served by the contract: “to form a more perfect Union, to establish Justice, insure Domestic Tranquility, provide for the common defense, promote the general Welfare, and secure the Blessings of Liberty to all generations of Americans — and it is under the authority of the CONSENT of the GOVERNED by which this contract (Constitution) is ORDAINED for the United States of America.

That’s why our Constitution begins: “We the People of the United States, in Order to form a more perfect Union, establish Justice, insure domestic Tranquility, provide for the common defence, promote the general Welfare, and secure the Blessings of Liberty to ourselves and our Posterity, do ordain and establish this Constitution for the United States of America.”

It does not begin: “We the Congress,” nor “I the Executive,” nor “We the judiciary”; it begins, “WE THE PEOPLE,” and these words are CAPITALIZED. The Congress, the Executive, and the Judiciary have existence by the ordaining authority of WE THE PEOPLE, thus forming, by DIVINE RIGHT, the ordained authority under GOD’S GRACE and Christ’s Governance. Because all power is ordained by GOD, and GOD has ordained that governments instituted by men receive their authority to rule from the consent of the governed. He has commanded that any who would rule men but do so justly, and in the fear of GOD.

Whenever any people submit to a tyrant and yield to unjust leaders, they have, by default, consented to be so ruled.

So, what's going on with Mike Johnson? By the way, I was given the honor of an H-139 pass, "Official Business" pass, to walk in the halls behind the typical tourist paths. It was awesome, the sense of history in our Capitol is felt, and humbling! We walked past the office doors of Thune and Johnson, directly across from one another, and sat with Pastor Wells in what is called the Green Room, where the king of England lately met with our President. Awesome stuff! Thank you, Pastor Brad Wells, who conducts prayer meetings in the White House, and holds, I think it's three, different prayer meetings with Congressional leaders each week, and walks with the Speaker onto the House Floor. I loved it, and thank God for the honor of representing the Lighthouse at Rededicate 250. Over 100 thousand gathered to rededicate America as One Nation Under GOD. I'm glad I could be one of them.

Anyway, what has Mike Johnson done now? Tim Burchett, love this man, very down to earth, with common sense, and clear vision. He was intensely frustrated with Johnson's weak or, to not say passive, let's say, "pacific" leadership style. All of Burchett's amendments to the BUILD America 250 (H.R. 8870) Bill were shot down by Democrats. Here is a link to Tim's complaint.¹⁴ He accuses Johnson of giving the leadership of the House to the Democrats and of failing to use the majority, albeit a thin one, to advance Republican values and principles.

So here is what happens. They drop a 1000-page bill on the House without providing anything like sufficient time for their staff to research it. To get it passed without eternal wrangling that will stall it, because Mike knows the Democrats will stall passage and leave huge piles of money uncommitted - over 500 Billion (with a B), so he got bipartisan support for a spending package with the promise that either side could have full veto power over any additional amendments—both sides have to agree on all

¹⁴ <https://x.com/amuse/status/2057825799747621305?s=20>

amendments, meaning if even one Democrat, or Republican, objects to an amendment, it is removed. The Democrats hate guys like Tim Burchett so they shot down every amendment he presented and they were removed in accordance with what Burchett called the back-room deals that go on behind closed doors. Here is a link to a GROK report that takes you through the whole thing.¹⁵

Here is what has happened! The Republican side of the aisle is compromised by more than a razor-thin majority; it is compromised by establishmentarians within the GOP who hate Trump as much as the Democrats do. These are the RINOs. There is a purge coming, actually, it's already going strong, but we've got to get through the 2026 midterms with something that I don't think has ever happened before, a strong broadening of MAGA control of both the House and the Senate. Let's see, wait, actually, this has occurred three times in the 250-year history of this Republic under GOD: 1934 midterm under President Franklin Delanor Roosevelt, Democrats; 1998 midterm under President Bill Clinton, Democrat, and 2002 midterm under President George W. Bush, Republican. So, to even it out, it's time for a Republican midterm expansion event and GOD knows that's what we need.

But if we keep giving the gavel to Thune's, we might as well, what? I don't even know what to say — can we find any men who will FIGHT, FIGHT, FIGHT alongside our President and take the bold action necessary to SAVE AMERICA!

Nuke the filibuster, or nuke the Majority Leader, but get the Save
